« Je devrais être morte à l'heure qu'il est. Mais ce sont d'autres personnes qui n'arrêtent pas de mourir à ma place ! » Ecrivaine ratée, Jen Carter travaille dans une librairie de Glasgow. Ed, son petit ami, est un adorable voyou qui la trompe. Elle se demande encore si elle fait bien de l'éjecter de sa vie quand le destin s'en mêle de façon intempestive : accidentellement – évidemment –, elle le tue. Les problèmes surgissent et s'enchaînent aussitôt : que faire du corps ? de la drogue ? de l'énorme somme d'argent que ledit Ed a laissée chez elle ? Et surtout, comment échapper au tueur qui veut récupérer sa marchandise ? Au flic corrompu, aux médias sensationnalistes et au grand patron de la mafia de Glasgow, Solomon Buchan en personne ? Eh bien... en devenant la femme la plus dangereuse d'Écosse. Volontairement ou par toute sorte de hasards ? La question, un rien ironique, est bien là. Pour le plus grand plaisir du lecteur. « Magnifiquement sombre et troublant. Mais aussi magnifiquement drôle et... écossais. » Dundee University Review of the Arts *Ancient Civilizations of Africa* BRILL

This book explores how Modernist movements all across the Mediterranean basin differed from those of other regions. The chapters show how the political and economic turmoil of a period marked by world war, revolution, decolonization, nationalism, and the rapid advance of new technologies compelled artists, writers, and other intellectuals to create a new hybrid Mediterranean Modernist aesthetic which sought to balance the tensions between local and foreign, tradition and innovation, and colonial and postcolonial.

A Metaphor for Peace Lake Union Publishing

À la fin des années 90, le sud de la France est le théâtre de plus de 70 vols par effraction de coffres forts, de supermarchés, de magasins divers, la plupart réalisés au tractopelle et d'environ 400 vols dans et de véhicules. Les investigations ont été menées par une cellule d'enquête de la Gendarmerie Nationale, basée à Narbonne, que nous appellerons ici KOFIO 11. Ce polar est tiré d'une histoire vraie. Les noms des personnages ont tous été modifiés, d'autres ont été inventés et les faits quelques peu romancés, bien que !!! ... Fidèle au monde des faits divers, ce roman traite du quotidien des petites mains, propres ou sales, trop souvent oubliées. A travers ce livre, l'auteur a souhaité que le public découvre le travail extraordinaire fait par des gens que la très haute

hiérarchie policière croit ordinaires. Une sorte de pied de nez aux idées reçues. Souvent le héros est cherché où il n'est pas ! ... Dans ce métier, on ne peut être un bon flic et un héros. Ici, tous ont choisi de n'être que flic !

In an unforgettable love story, a woman's impossible journey through the ages could change everything.... Anne Gallagher grew up enchanted by her grandfather's stories of Ireland. Heartbroken at his death, she travels to his childhood home to spread his ashes. There, overcome with memories of the man she adored and consumed by a history she never knew, she is pulled into another time. The Ireland of 1921, teetering on the edge of war, is a dangerous place in which to awaken. But there Anne finds herself, hurt, disoriented, and under the care of Dr. Thomas Smith, guardian to a young boy who is oddly familiar. Mistaken for the boy's long-missing mother, Anne adopts her identity, convinced the woman's disappearance is connected to her own. As tensions rise, Thomas joins the struggle for Ireland's independence and Anne is drawn into the conflict beside him. Caught between history and her heart, she must decide whether she's willing to let go of the life she knew for a love she never thought she'd find. But in the end, is the choice actually hers to make?

A magisterial history of the artists and writers who left Weimar when the Nazis came to power In 1933 thousands of intellectuals, artists, writers, militants and other opponents of the Nazi regime fled Germany. They were, in the words of Heinrich Mann, "the best of Germany," refusing to remain citizens in this new state that legalized terror and brutality. Exiled across the world, they continued

the fight against Nazism in prose, poetry, painting, architecture, film and theater. Weimar in Exile follows these lives, from the rise of national socialism to their return to a ruined homeland, retracing their stories, struggles, setbacks and rare victories. The dignity in exile of Walter Benjamin, Ernst Bloch, Bertolt Brecht, Alfred Döblin, Hanns Eisler, Heinrich Mann, Thomas Mann, Anna Seghers, Ernst Toller, Stefan Zweig and many others provides a counterpoint to the story of Germany under the Nazis.

[the text below needs editing and we must be careful not to say things about Dan Brown's book that could get Springer in legal trouble] Dan Brown's novel, The Da Vinci Code, was first published in 2003; its sales have reached 40 million worldwide. The book mixes a small spice of fact into a large dollop of fiction to create an entertaining novel of intrigue, adventure, romance, danger and conspiracy, which have been imaginatively worked together to cook up the successful bestseller.

Most interest in the book's origins has centred on the sensational religious aspects. Dan Brown has written: 'All of the art, architecture, secret rituals, secret societies, all of that is historical fact.' This gives an air of authenticity to the book. Brown has, however, made up the religious doctrines, or based them on questionable accounts by others. The locations of the actions of The Da Vinci Code are not, however, made up. The present book is the scientific story behind the scene of several of the book's actions that take place on the axis of France that passes through Paris. The Paris Meridian is the name of this location. It is the line running north-south through the astronomical observatory in Paris. One of the original intentions behind the founding of the Paris Observatory was to determine and measure this line. The French government financed the Paris Academy of Sciences to do so in the seventeenth to nineteenth centuries. It employed both astronomers - people who study and measure the stars - and geodesists - people who study and measure the Earth. This book is about what they did and why. It is a true story behind Dan Brown's fiction. This is the first English language presentation of this historical material. It is attractively written and it features the story of the community of scientists who created the Paris Meridian. They knew each other well - some were members of the same families, in one case of four generations. Like scientists everywhere they collaborated and formed alliances; they also split into warring factions and squabbled. They travelled to foreign countries, somehow transcending the national and political disputes, as scientists do now, their eyes fixed on ideas of accuracy, truth and objective, enduring values - save where the reception given to their own work is concerned, when some became blind to high ideals and descended into petty politics. To establish the Paris Meridian, the scientists endured hardship, survived danger and gloried in amazing adventures during a time of turmoil in Europe, the French Revolution and the Napoleonic War between France and Spain. Some were accused of witchcraft. Some of their associates lost their heads on the guillotine. Some died of disease. Some won honour and fame. One became the Head of State in France, albeit for no more than a few weeks. Some found dangerous love in foreign countries. One scientist killed in self defence when attacked by a jealous lover, another was himself killed by a jealous lover, a third brought back a woman to France and then jilted her, whereupon she joined a convent. The scientists worked on practical problems of interest to the government and to the people. They also worked on one of the important intellectual problems of the time, a problem of great interest to their fellow scientists all over the world, nothing less than the theory of universal gravitation. They succeeded in their intellectual work, while

touching politics and the affairs of state. Their endeavours have left their marks on the landscape, in art and in literature.
