Contemporary Intellectual Assessment, Fourth Edition Pascal Press

This leading practitioner reference and text--now in a revised and expanded fourth edition--provides the knowledge needed to use state-of-the-art cognitive tests with individuals of all ages, from preschoolers to adults. The volume examines major theories and tests of intelligence (in chapters written by the theorists and test developers themselves) and presents research-based approaches to test interpretation. Contributors address critical issues in evaluating culturally and linguistically diverse students, gifted students, and those with intellectual disability, sensory-motor impairments, traumatic brain injuries, and learning difficulties and disabilities. The fourth edition highlights the use of cognitive test results in planning school-based interventions. New to This Edition *Complete coverage of new or updated tests: WPPSI-IV, WISC-V, WISC-V Integrated, WJ IV, ECAD, CAS2, RIAS-2, KABC-II Normative Update, and UNIT2. *Chapters on cutting-edge approaches to identifying specific learning disabilities and reading disorders. *Chapters on brain imaging, neuropsychological intervention in schools, adult intellectual development, and DSM-5 criteria for learning disorders. *Updated chapters on theories of intelligence, their research base, and their clinical utility in guiding cognitive and neuropsychological assessment practice.

By far, the most comprehensive and detailed coverage of pediatric neuropsychology available in a single book today, Davis provides coverage of basic principles of pediatric neuropsychology, but overall the work highlights applications to daily practice and special problems encountered by the pediatric neuropsychologist. Cecil R. Reynolds, PhD Texas A&M University "The breadth and depth of this body of work is impressive. Chapters written by some of the best researchers and authors in the field of pediatric neuropsychology address every possible perspective on brain-behavior relationships culminating in an encyclopedic text. This [book] reflects how far and wide pediatric neuropsychology has come in the past 20 years and the promise of how far it will go in the next." Elaine Fletcher-Janzen, EdD, NCSP, ABPdN The Chicago School of Professional Psychology "...it would be hard to imagine a clinical situation in pediatric neuropsychology in which this book would fail as a valuable resource."--Archives of Clinical Neuropsychology "I believe there is much to recommend this hefty volume. It is a solid reference that I can see appreciating as a resource as I update my training bibliography."--Journal of the International Neuropsychological Society This landmark reference covers all aspects of pediatric neuropsychology from a research-based perspective, while presenting an applied focus with practical suggestions and guidelines for clinical practice. Useful both as a training manual for graduate students and as a comprehensive reference for experienced practitioners, it is an essential resource for those dealing with a pediatric population. This handbook provides an extensive overview of the most common medical conditions that neuropsychologists encounter while dealing with pediatric populations. It also discusses school-based issues such as special education law, consulting with school staff, and reintegrating children back into mainstream schools. It contains over 100 well-respected authors who are leading researchers in their respective fields. Additionally, each of the 95 chapters includes an up-to-date review of available research, resulting in the most comprehensive text on pediatric neuropsychology available in a single volume. Key Features: Provides thorough information on understanding functional neuroanatomy and development, and on using functional neuroimaging Highlights clinical practice issues, such as legal and ethical decision-making, dealing with child abuse and neglect, and working with school staff Describes a variety of professional issues that neuropsychologists must confront during their daily practice, such as ethics, multiculturalism, child abuse, forensics, and psychopharmacology
